

# TRUCK/DOCK LADDER

Truck/Dock Ladders with 50-Degree Safety Angle are designed to promote safety and productivity. 50-degree ladder angle enables user to turn and descend facing forward while carrying bulky load. The large platform and each step feature serrated tread for slip-resistant footing. Removable back and side chain enable front or side loading from trailer. Large rear wheels roll smoothly over rough terrain. Meets OSHA Standards.

Item B1893202
